# S-Cart300L

The S-Cart300L cart for the MiR250 has been developed to work with the TML200 top module. This cart enables the TML200 to lift and transport payloads up to 170kg/374lbs. on the MiR250, allowing it to maneuver in situations where floors have reduced traction e.g. on polished or dusty floors

### FEATURES

Works with the TML200, where it can be transported in lifted position.

Can be manually rolled away by operators

Pick up and drop off in free space - docking station is not required

NOTE: S-Cart rails in EU and US sizes available.
